

## About Maggie

Maggie Teter, CMC, CMIS, CMOM

Maggie has more than 22 years of well-rounded healthcare experience, including comprehensive knowledge of medical practice management, coding, billing, claim resolution, and regulatory policies relevant to the practice, including HIPAA and OSHA.

She is an instructor for PMI as well as the primary coder for abusy surgical practice, where she is responsible for accounts receivable/collections, billing, pre-authorizations and referrals. She also handles all the implementation, training, and monitoring of practice compliance programs.

Maggie spends a great deal of her time developing, training, and implementing compliance plans as a consultant. She also conducts chart audits, as well as works with physicians to improve E&M documentation. Maggie is one of a limited number of instructors in the us who are able to teach to every major coding specialty.

She is a self-motivated professional, and became a Certified Health Care Technician through Allegheny College of Maryland. Working in a medical office, Maggie sees first-hand the problems offices face. She enjoys a reputation as an instructor who is able to convey complex subject matter into easy to understand terms. Maggie has also been certified as a Phlebotomy Technician, EKG Technician, and is a retired EMT.
