

About Merrilee

Merrilee Severino, CPC, CPM,
CMMP, NC

Merrilee has more than 25 years of experience working with physicians to help start, market, or overhaul their practices. Helping physicians add additional revenue streams to allow providers to regain their quality of life is her true passion.

Her specialties include new practice development, accounts receivable review and recovery, credentialing, and educating providers and staff to interpret information from their practice management reports. She has helped with the transition to EMR and optimization of EMR efficiency. She has also worked with physicians to improve revenue and compliance with risk adjustment and HEDIS reporting.

Merrilee founded the Tampa Bay Chapter of Physician Office Managers Association of America (POMAA) where she served as President from 2009 through 2011. She has been published and quoted in several articles, books, and audio conferences for healthcare publications including BC Advantage Magazine and has recorded several audio conferences, spoken for various groups including PriMed South, AAPC, POMAA and more. She has held as many as four active positions on the advisory boards for local colleges as well as the editorial board for BC Advantage Magazine.
